- Foundation repairs

PURPOSE:

To service the customer better than traditional roofing companies can do. Most roofing companies look at service work as secondary, but we look at it as our primary work.

Why?

Think again ! Because of the large and increasing costs associated with roof replacements, damage associated with leaking roofs, and the burden leaking roofs can place on you.

Q: Do you treat your roof like it should be treated?

A. Just because you can't see it does not mean that your roof is not in need of maintenance.

Q: Can I schedule a routine cleaning and inspection just like I do for my lawn and landscape?

A: Certainly ! Roofs are not much different than your lawn. They need cleaned, maintained, and periodically repaired. Just because you don't always see your roofs does not mean they do not need maintained.

"Don't wait any longer, call for your [preventative maintenance inspection today](#)"

WHO?

Roof Maintenance Company is a full time roof repair and service company located at 1644 East 12th Street in Erie, PA.

Our service crews have over 20 years of experience in the ROOF REPAIR business. We know how to prevent failures and how to repair them when they occur.

Our Roof Maintenance Mgr. is Jeff Hall. Jeff has been with the Company over 18 years and serves as our Safety Manager as well. Give Jeff the opportunity to service your roof by calling: **814-452-2539 (Alex Roofing)** and ask for the **ROOF MAINTENANCE** department !
